- Highly detailed ground service equipment and other clutter objects.
- Up to date runway, taxiway and stand layouts.
- Custom taxiway signage.
- Custom windsock model.
- Custom taxiway and runway guard lighting effects.
- Realistic night time dynamic lighting.

Product description

Visit Germany's seventh busiest airport! Nestled between the cities of Cologne and Bonn next to the Rhine river the airport named after West-Germany's first Chancellor Konrad Adenauer doesn't only offer a short hop to Central European airports but it's also a major gateway for Cargo operations in and out of Europe.

Featuring two parallel runways (14L/32R & 14R/32L) and one crosswind runway (06/24) with the longest being 3,815 meters (12,516 feet) it allows any type of flight operations, from a Holiday Charter to the Mediterranean to a red-eye cargo flight halfway around the globe.

Cologne Bonn Airport is one of Germany's few airports operating 24-hours a day. It served close to 12 million passengers in 2016 (an 15% increase from previous year) to almost 150 destinations and more than 786.000 tons of air cargo – this airport truly never sleeps.

System requirements

- Microsoft Flight Simulator
- OS: Windows 10 (Nov 2019 Update - 1909)
- DirectX: DirectX 11
- CPU: Intel i5-4460 -or- Ryzen 3 1200
- GPU: NVIDIA GTX 770 -or- Radeon RX 570
- VRAM: 2 GB
- RAM: 8 GB
- HDD: 3 GB
