- Improved Taxiway Lines

### **13<sup>nd</sup> of February 2022 – V1.3.1**

- Fixed Compatibility with YADG
- Added working Fuel Pump

## History

**Ayers Rock Airport YAYE** (also known as Connellan Airport) is located 463km or approximately a 5-hour drive from Alice Springs, and 20 mins from Uluru (Ayers Rock).

The original Connellan Airport at Uluru was provided by Edward Connellan, who founded Connellan Airways in 1942. It was decided in the early 1970s to remove all accommodation-related tourist facilities from near the base of Uluru and re-establish them outside the national park. In 1975, a reservation of 104 km<sup>2</sup> (40 sq mi) of land beyond the national park's northern boundary, 15 km (9.3 mi) from Uluru, was approved for the development of a tourist facility, to be known as Yulara, along with a new airport. The airport as we know it today has been fully operational since late 1984 and caters to around 300,000 passengers per year.

Situated at 1626ft, the airport has one runway which is 2599m long which caters for both GA and commercial operations while the terminal is open each day from 9:00 – 16:00.

## About the Airport

### Welcome to Ayers Rock Airport - Uluru (YAYE) for Microsoft Flight Simulator 2020!

Ayers Rock Airport is your gateway to discover Uluru, a UNESCO World Heritage Site! Located in the heart of Outback Australia, Uluru is only a short flight from Sydney, Melbourne, Adelaide or even Perth! Here's your chance to discover this truly amazing destination.

The airport has been developed to a high level of detail with many bespoke features for you to explore and discover.
