1st of February 2022 – V1.1.1

- Compatibility with WU7
- Fixed Airport Services
- Fixed Elevation Issue at Balls Pyramid
- Fixed Red Glow on the Apron for some users

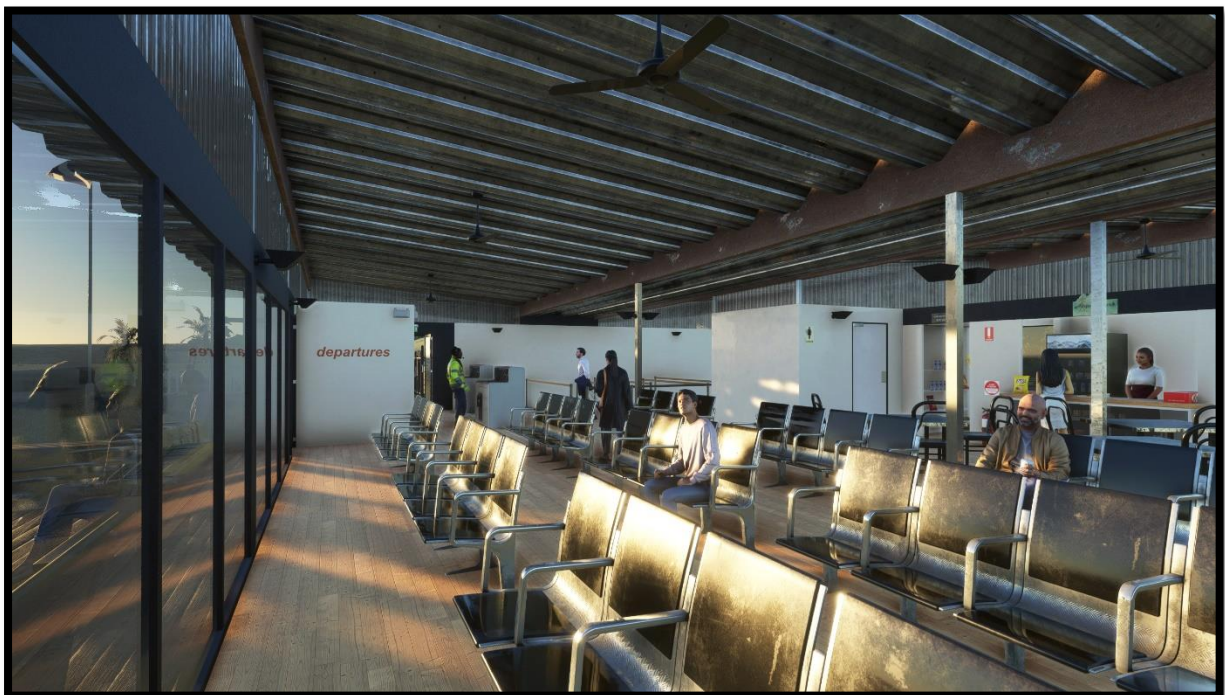

History

Rising from the Tasman Sea just 700km northeast of Sydney, this tiny, breathtakingly beautiful island is just 11km long and 2.8km at widest. Lord Howe Island and its surrounding islets are the eroded remnants of a large shield volcano that erupted from the ocean floor some 7 million years ago. More than 70% of the island is a permanent protected park reserve, and the surrounding ocean is also protected as a Marine Park.

The first reported sighting of Lord Howe Island took place on 17 February 1788 and permanent settlement occurred in June 1834. Today, 382 people call Lord Howe Island home and up to 400 tourists are allowed to visit per day

The airport is one of the most unique in Australia, offering amazing views combined with a challenging approach and a short 888m runway!

Lord Howe Island is just paradise, have fun exploring!

About the Airport

Welcome to **Lord Howe Island (YLHI)** for Microsoft Flight Simulator 2020!

Located 600km off the Australian East Coast, Lord Howe Island is a **truly stunning place to fly** that has been **recreated to the highest level for detail** offering you the opportunity to discover this **UNESCO World Heritage Site** from the comfort of your home.
