Scenery addon for Microsoft® Flight Simulator®

Ajaccio Napoleon Bonaparte Airport is a French airport located at 5km of Ajaccio city in South-Corsica.

LFKJ – Ajaccio Napoleon Bonaparte is an airport add-on for Microsoft® Flight Simulator® from the *Airport FRANCE Pack #4* which models Ajaccio Napoleon Bonaparte airport in extremely detailed fashion, including airport buildings, textures and ground markings as well as its night lights and many objects on the platform.

The *Airports FRANCE* range for Microsoft® Flight Simulator® has been designed to offer once completed about 30 of the most famous and/or frequented French commercial airports.

Our goal for all the products in this range is above all to offer mixed IFR/VFR platforms offering the best possible compromise between homogeneity, visual rendering and search for realism while offering very attractive prices through "bundles" grouping several airports in one package.
