

INVERNESS AIRPORT

(EGPE)

GATEWAY TO THE SCOTTISH HIGHLANDS

WELCOME TO THE GATEWAY TO THE SCOTTISH HIGHLANDS!

Experience Inverness Airport (EGPE) like never before in X-Plane 12. Rebuilt from the ground up as an official collaboration between Skybound Studios and Mango Studios, this major V2 overhaul delivers next-generation detail, environmental immersion, and complete optimization for X-Plane 12's modern rendering engine.

Situated at Dalcross, just 8 miles northeast of the city of Inverness, it is the ultimate hub for regional turboprops, helicopters, and short-haul commercial airliners like the A320 and B737. From challenging low-visibility coastal approaches to short-field regional hops across the UK and Europe, this scenery beautifully captures the true atmosphere of Northern Scotland.

FILE INFORMATION

Download Size: **1.25GB**
Installed Size: **2.2GB**

KEY FEATURES

X-PLANE 12 NATIVE OPTIMISATION

Re-engineered to leverage native volumetric weather, real-time rain shaders, and dynamic seasonal ground textures.

HIGH-FIDELITY 3D MODELLING

Fully custom, high-resolution airport buildings, hangars, and an updated main terminal layout.

4K PBR TEXTURING

Ultra-detailed photorealistic ground surfaces with realistic dirt, wear, and runway grunge.

DETAILED LANDSIDE AREAS

Includes detailed 3D modelling for the landside areas & surrounding industrial estate.

ENHANCED REGIONAL ENVIRONMENT

Features dense 3D vegetation, hand-placed trees, and landside regional detail extending far past the airport boundary (including nearby houses, farms, and industrial parks).

BESPOKE NIGHT LIGHTING

Custom, colour-accurate night-lighting models to make low-visibility evening approaches incredibly immersive.

OPTIMISED PERFORMANCE

Carefully balanced to maintain excellent frame rates without compromising on visual depth or object density.

INSTALLATION

- 1 Download the scenery file from your store or account.
- 2 Extract the downloaded .zip or .7z file using 7-Zip, WinRAR, or similar.
- 3 Place the extracted folders into your X-Plane 12/Custom Scenery folder.
- 4 Start X-Plane 12 and ensure the scenery package is at the top of your scenery_packs.ini file.
