Prepar3D screenshot

Welcome to Emo Mission, located in a very scenic valley of South East PNG.

This project is our way of saying thanks for the support from Orbx customers who have enjoyed our 1st project in the Pacific Islands region.

We have many more expansions planned for this area, everything from wild tropical strips in very hard to get at places to tranquil seaside ocean view gems filled with coconut palms and crystal clear tropical waters.

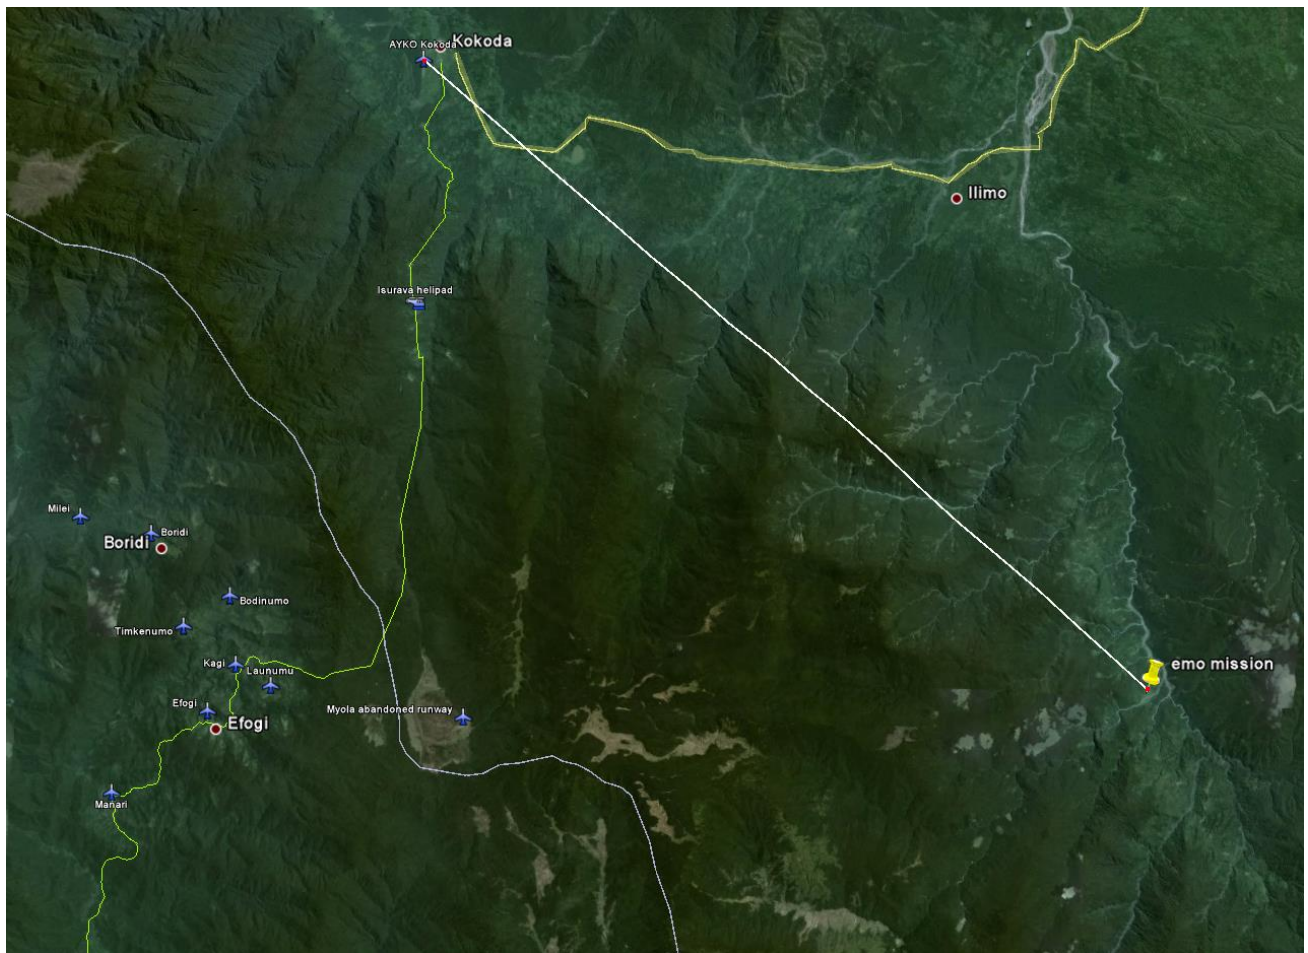

So on behalf of Tim and Myself, thanks heaps for the support and we hope you enjoy our bonus strip.

Cheers All

How to Find Emo Mission.....

AYEO Emo Mission is located by a river 23nm from Kokoda airport on a heading of 120 degrees magnetic.

Mudmap for reference

When you find the valley follow the river till you see the waterfall on the left, the strip is located adjacent to the next valley on the right, it's an uphill approach with a flat area towards the center. Have a safe flight, and the locals are friendly.

Scenery coverage

Cheers
Ken and Tim
